## PROGRAMMER/DATA ANALYST

---

Position:	Programmer/Data Analyst		
Reports to:	Manager of Operations		
Opening Date:	June 25, 2011	Status:	Non-Exempt
Opening Serial# :	2010-06-004A	Terms:	Full-time
Review Date:	Open till filled	Location:	Atlanta, GA 30326

### POSITION SUMMARY

The Programmer/Data Analyst requires a self-motivated, independent, and analytical individual to maintain the organization's proprietary database management system. The position is responsible for continuing development and refinement for both front and back end operations of the SQL Server-based, web interface application. Other responsibilities include ensuring the integrity, validity, and accuracy of data.

### RESPONSIBILITIES

- Manage the integrity of data input/output and take corrective measures to address any inconsistencies
- Create ad hoc queries, exports, and reports for end users as necessary
- Design, implement, and maintain scripts for automating the integration of data from external sources
- Monitor and optimize system health, performance, and operational manageability
- Identify improvements and modify SQL application and web interface to deliver end user requirements, as well as propose plans for future growth and enhancements
- Assist in the development and testing of disaster recovery plans, back-up strategies and procedures
- Provide technical support to end users
- Other duties and responsibilities as assigned

### QUALIFICATIONS

All of the following are required and considered critical elements to be considered for the position (as noted):

- 2+ years of related experience, degree in Computer Science preferred
- Proficient in T-SQL (Transactions, Stored Procedures) and SQL Server Management Tools
- Experience with Visual Studio 2005/2008, .NET Development (ASP.NET), and OOP
- Competent in all levels of n-tier web applications development
- Proficient in Microsoft Office Suite 2003/2007 (Word, Access, Excel, PowerPoint)
- Working knowledge of other web related technologies (HTML, CSS, XML)
- Knowledge in configuring, troubleshooting, and maintaining Windows/SQL / IIS Servers
- Capable of adjusting to changing priorities and deadlines
- Strong interpersonal, written and verbal communication skills
- Able to work independently and deliver solutions

### COMPANY OVERVIEW
